Weekly News

Another good week at the club, good numbers turned up in the hope of being able to collect the \$1500 membership draw. Unfortunately, the member wasn't in the club and likewise nor was the member for the reverse number.

This week and going forward until a member's membership number is drawn and the member is present in the club with their membership card pool "A" will remain at \$1500. While pool "B" will increase by a \$100 weekly, it's worthwhile being in the club at 7.00 pm Thursday evenings for the draw. While there enjoy a meal, George's meals are a great feast.

Work is still ongoing with the refurbish of the lady's shower/toilet. Water tightness of the shower area is almost completed and tiling and is looking great with white tiling on the shower walls. Like most projects the work has taken considerably long than scheduled, mainly due to minor changes on the way. Sorry ladies for the inconvenience but the end result will have been worthwhile waiting for!!

Once the ladies toilet /shower is completed we will tile the hallway floor to the men's toilet/shower. During the estimated week for this work men will have access to the lady's toilet/shower, please be respectful to each other. Internal doors are lockable from the inside.

Our forklift truck will be out of action this Thursday or Friday for maintenance work, hopefully the inspection work planned will only take the one day. Therefore only quick hauls are available, Steve will have these scheduled. Sorry for the inconvenience but maintenance is essential.

It is with sadness we report the passing of a long-standing (approx. 26 years) club member and Tamaki river resident Hans Obersteller.

Winter Racing

Race Account #4 - Sponsor Haslips Tyres

Was this a repeat from 2 weeks ago? Similar wind conditions - blustery easterly, strong incoming tide - 5 starters? Tart & Babe had a grueling SSANZ race from Saturday in their bones, going back for more on Sunday.

Shortie joined the boats again, and had they not got stuck on the mud for a bit, well this could have even been a win.

This time no match race starts - Strong Persuader was a little early at the start and got the gun (to do it all again). Babe did not want to risk it and started a little later instead. We decided to wait for Babe to have the 1 minute distance re-established (well, we were a bit slow off the start line, even though on time ...)

Shortie did get away on all of us, we saw them rounding the rounding buoy when we passed Point England on the way back - a hard task to get them. We did close the gap to the larger boats - by the way - no one dared to put kites up - not worth it in an easterly. Strong Persuader seemed to be doing a 360 close to Krisis on the second run, not sure what happened here. Tart took this chance and broke free and only had Shortie to deal with (stuck on the mud for a few minutes certainly did not help to keep the lead). We finally closed into the rest of the fleet, Shortie in reaching distance - and finally on the homerun we thought we had them, only to be pipped by 1s on the finish line. Had the finish line moved from the virtual line from the flagstaff to the jetty pole to flagstaff to rounding buoy instead? We thought we took the shortest route to the finish line, but obviously hadn't.

Great to be out there though. The final standing was Tart, Strong Persuader and Shortie.

See you all out there next week.
